6. Telescopes: Portals of Discovery	13. Other Planetary Systems: The New Science of Distant Worlds
7. Our Solar System	24. Life in the Universe

75% of the homework will be online with MasteringAstronomy system that accompanies your textbook. You need to gain access to this system to pass this course. Here are three ways:

1) Students who purchase a new book in the Cal Student Store will receive an access code for MasteringAstronomy system with the book. (Be aware that, if you buy a “new” book online from a third party, you may end up with a new book but without a valid access code. This has happened in the past unfortunately.)

2. Students who rent the book from the Cal Student Store for \$47 or buy a used book from a friend, from the bookstore or online (the 4th, 5th, and 6th editions are all ok) without an access code need to purchase access to MasteringAstronomy separately at www.masteringastronomy.com for \$60.50. They will need the Course ID and a valid credit card. Be sure to purchase access to the 7th edition!

3. Students who wish to purchase an eBook with their Mastering access can also do so at www.masteringastronomy.com. Again, they will need your Course ID and a valid credit card.

What You Need:

- ✓ **A valid email address:** Please enter only your Calmail address.
- ✓ **A student access code** (Comes in the Student Access Kit that may have been packaged with your new textbook or is available separately in your school’s bookstore. Otherwise, you can purchase access online at www.masteringastronomy.com.)
